

Welcome to Department of Computer Science

Established in 2007 — Empowering IT Professionals & Entrepreneurs

The Department of Computer Science started in 2007 with the objective of catering to the growing demands of the dynamic IT industry and has seen success through growth and development of students into young professionals and entrepreneurs.

Academic Programmes

1. BSc (Computer Science) — **Intake of 160 students**

2. BBA (Computer Application) — **Intake of 160 students**

Key Highlights

- Industry oriented and Interdisciplinary curriculum

- Value added courses for holistic development

- Computer practicals for skill development on latest computer technologies

- Placement Opportunities through ability enhancement courses

- Orientation for research competition

- Strong Alumni Network

- Experiential learning for societal awareness

- Electives and Specializations

- Soft skill / management courses

- Emphasis on critical thinking for project and application development

- Guest Lectures

The Department offers various certification courses through the **IIRS-ISRO Nodal Center** for skill development, conducts various value-added courses for industry orientation, organizes events for their

holistic development, and provides a platform for research orientation through participation in SPPU's Avishkar Competition.

Objectives

Objective 1

To provide Computer education by developing logical and analytical skills so as to design and implement the solutions for real world problems.

Objective 2

To provide a platform for developing and showcasing curricular, co-curricular and extra-curricular activities to become confident professionals.

Objective 3

To develop problem-solving skills, think logically, identify and analyze a problem, design a solution as a systematic way of processing the necessary information to produce the required output, and implement the solution.

Objective 4

To provide the right support, training, infrastructure and blended learning to enhance student engagement and prepare learners for the challenges of the future.
