

Welcome to Department of Computer Application

Fostering Excellence, Innovation, and Entrepreneurship

The institute continues to meet the growing demands of the dynamic IT industry and has achieved success by fostering the growth and development of its students into skilled young professionals and entrepreneurs.

Academic Programme: BBA (Computer Application) — AICTE approved with an intake of 160 students.

Key Highlights

- Industry oriented and Interdisciplinary curriculum

- Experiential learning for societal awareness

- Value added courses for holistic development

- Electives and Specializations

- Computer practicals for skill development on latest technologies

- Soft skill / management courses

- Placement Opportunities through ability enhancement

- Emphasis on critical thinking for project development

- Orientation for research competition

- Guest Lectures

- Strong Alumni Network

The Department offers various certification courses through NPTEL, IIT SPOKEN Tutorial. The department offers various value-added courses for industry orientation, organizes events for their holistic development and provides a platform for research orientation through participation in SPPU's Avishkar Competition.

Objectives

Objective 1

To provide quality computer education by developing logical and analytical skills, enabling students to design and implement effective solutions for real-world problems.

Objective 2

To offer a platform for developing and showcasing curricular, co-curricular, and extra-curricular talents, helping students become confident and well-rounded professionals.

Objective 3

To cultivate strong problem-solving abilities by encouraging students to think logically, identify and analyze problems, design systematic solutions, and implement them effectively.

Objective 4

To provide appropriate support, training, infrastructure, and blended learning opportunities to enhance student engagement and prepare learners for future challenges.
